4.2. If the number of applicants exceeds the number of places available, the following selection procedure will be followed:

Phase 1

Applicants will be awarded up to 11 points, in accordance with the following criteria:

- Their university entrance exam score, which can count towards 5 points.

- Their academic record for their home university courses up until the applications deadline. This analysis serves to check that students have met requirements b), c) and d) of Article 3 and will assess how well the subjects they have taken at their home universities match the courses they wish to take at ESCI-UPF. This assessment can count towards 5 points.

- Students from education systems within the European Higher Education Area will be awarded an additional point.

Once Phase 1 is complete, a list will be posted on the university website setting out the points awarded to all candidates, successful and unsuccessful, together with a waiting list, if applicable.
Phase 2

Phase 2, which gets under way once Phase 1 is complete, serves to recognise credits for the subjects taken. To take part in this phase, applicants need to submit a credit recognition application, in accordance with these regulations.

This phase is only open to applicants who were admitted in Phase 1, in descending order of the number of points they were awarded until all available places for each course have been filled.

The final list of applicants admitted for each course will be made public within the given deadline.

5. Decision

5.1. The head of studies at ESCI-UPF is responsible for overseeing Phases 1 and 2, as well as managing the admissions process and sending the definitive proposed admissions to the rector. The rector or vice-rector, if applicable, will take the final decision on admissions.
